

HIGHEST PRECISION IN CUTTING

*Continuously producing sticks
made of processed cheese.*

Line module

StickCutter

natec

StickCutter

natec

The **Natec StickCutter** is designed to produce sticks made of processed cheese. The continuous cutting system complements the **Natec FreeSlice®** or other equipment for the production of SOS cheese. It is also possible to produce sticks made of different types of analogue or hybrid cheese in variable sizes.

Forming & portioning

Processed cheese

+ Benefits

- » Inline production of processed cheese sticks (forming, cooling and cutting in one step)
- » Different formats can be set at the HMI
- » Production of sticks of exact dimensions
- » Possible changing of the length from 50 mm up to 135 mm without mechanical modification
- » Can be used for processed cheese, analogue or hybrid cheese
- » Movable on rollers

+ Options & attachments

- » Cutting shaft according to your formats
- » Further options available

+ Technical data

Machine data

- » L x W x H: 2,000 x 2,100 x 1,500 mm (78" x 82" x 59")
- » 400 V, 50 Hz, 3 phase / 8 kVA

Execution

- » According to CE guidelines

Capacity data

- » Up to 1,800 kg/h (4,000 lbs/h)
Depending on formats, temperature and slice thickness
- » Up to 150 cuts/min

Formats

- » Stick width: 4 – 100 mm (0.16" – 4")
- » Stick length: 8 – 500 mm (0.3" – 19")
- » Thickness: 2 – 12 mm (0.08" – 0.5")
Depending on final cheese temperature

Cleaning

- » Manually cleaning

Processable cheese dry matter

- » Processed cheese (SOS), analogue cheese, hybrid cheese

 Tell us about your project

SUCCESS GENERATING FOOD TECHNOLOGY

Hochland Natec GmbH, Gold Peg International Pty Ltd and Natec USA LLC joined forces to form an international network of food processing companies – the **Natec Network**. Always team spirited and leading in flexibility, quality, and innovation the network delivers customised equipment and production lines for key challenges in food processing and at every stage of business development. In order to meet the customers' requirements, even at the start of a project, the network uses its own specific service framework which combines extensive experience and professional expertise along with a drive for innovation.

The result is technology and support that is crucial in contributing to the value and development of our customers in the food production industry. The love of generating and implementing cutting edge ideas with great impact, as well as the willingness to tailor technology that can exceed the customer's targets, lets the **Natec Network** always strive to unlock business and human potential in a sustainable way with integrity – and thus be a partner who provide more than just technical infrastructure.
